

ABOVE-GROUND STORAGE SOLUTIONS

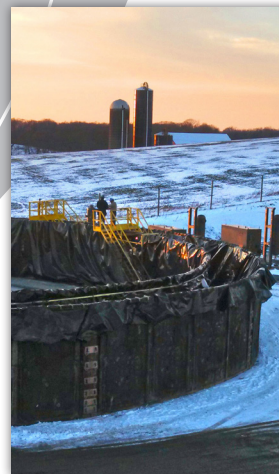

AVAILABLE SIZES AND SPECIFICATIONS

Select Water Above-Ground Storage Tanks are available in a variety of sizes ranging from 4,500 barrels to 82,000 barrels. Our largest tank replaces 165 standard frac tanks, reducing the costs associated with transport, set up and removal. Below are just a few of the possible tank configurations with size and capacity data:

Tank Size		Capacity (2' Freeboard)	
Barrels	Diameter	Barrels	Gallons
82,000 bbl	219 ft	65,580 bbl	2,800,000 gal
60,000 bbl	189 ft	49,648 bbl	2,085,216 gal
41,000 bbl	157 ft	34,485 bbl	1,448,370 gal
26,500 bbl	126 ft	22,216 bbl	933,072 gal
18,000 bbl	105 ft	15,356 bbl	644,952 gal
9,000 bbl	73 ft	7,547 bbl	316,974 gal
4,500 bbl	52 ft	3,852 bbl	164,748 gal

Nested Tank Systems

Select Water nested tank systems help minimize the risk of spill by combining the structural integrity and reliability of two tanks each fitted with our high quality liners.

By using the nested tank system, operators benefit from the preventive measures taken to improve environmental and personal safety performance.
